NDTCN

North Dakota Teacher Center Network

MISSION

The mission of the North Dakota Teacher Center Network is to assist practicing teachers, education students and other educational personnel in professional knowledge and skill development to improve the learning of students.

GOALS

1. Deliver professional development based on research and best practices.
2. Facilitate joint projects and exchange of services between K-12 schools, state and federal agencies and institutions of higher education for professional development of practicing teachers, education students and other educational personnel.
3. Communicate via print and/or electronic mediums to all constituents.
4. Provide practicing teachers, education students and other educational personnel with access to instructional resources and educational equipment.

Free Tree Seeds for Third Graders!

The NDSU-North Dakota Forest Service is offering **free tree seeds** to all third graders in North Dakota. The ponderosa pine seeds can be planted as a classroom project for Earth Day and/or Arbor Day, and then taken home or used in a school or community planting project. A *Project Learning Tree* handout on how to plant and care for a tree accompanies the tree seed packets.

The simple act of planting a seed represents a belief that the tree will grow, and some day, provide wood products, food products, wildlife habitat, soil erosion control, clean water, energy savings, shelter from the wind and sun, and beauty!

Earth Day is April 22 and Arbor Day is May 1...the first Friday in May in North Dakota. Celebrate the role of trees in our lives and promote environmental stewardship. If you're a third grade teacher and have not received an order form, get your free tree seed packets by contacting Glenda.Fauske@nds.edu or call (701) 228-5446 today.

*Bringing real life
into the classroom*

Food, Land and People: Credit available from NDSU and UND. Classes in locations throughout the state this summer, and are posted on the North Dakota Farm Bureau website. Go to www.ndfb.org/edusafe/flp for more information.

Integrating Ag and Energy into K-12 Curriculum: Credit from UND and NDSU. Class begins July 20. Limited to 10. Only cost is cost of credit. Four online/Google hangout meetings and one day face-to-face in Bismarck. Contact Katie Heger at 220-3168 or skheger6@gmail.com.

Graduate School

The MSU Graduate School offers nine master's degrees and one education specialist degree. Courses are available on campus, online, over IVN, and at other North Dakota locations.

The Master of Education degree offers several distinct concentrations as well as the option for a student to self-design a concentration to meet his/her classroom needs. The Master of Science in Special Education offers five concentrations, including Deaf Education and Developmental Disabilities/Autism Spectrum Disorders. For more focused discipline specific programming, students may select from a Master of Arts in Teaching (MAT) in Mathematics or Science, the Educational Specialist degree in School Psychology, or Master of Science degrees in Management or Information Systems.

The required capstone experience varies from completing a capstone course, an action research project, an artistic exhibition, a thesis, or written and oral comprehensive exams. Most programs provide students a choice for their final experience.

Several programs are state or federal grant supported, providing admitted students a range of financial support for their education. Additionally, MSU offers all students, regardless of residency, a low tuition rate of \$325.82 per credit for campus classes and \$327.42 per credit for online, IVN internet synchronous using Blackboard Collaborate, and other locations.
