

Student Alcohol and Other Drug Use/Abuse

Philosophy

The Bismarck School District shall strive to provide a learning environment that is safe, drug free, and conducive to learning. This policy is designed to help eradicate the influence of drugs and alcohol within the school environment, promote awareness and health, and protect students in the school environment by imposing consequences for drug and alcohol related violations.

Prohibited Activities

It shall be against school policy for any student to:

1. Sell, deliver, or give, or attempt to sell, deliver, or give to any person any of the substances listed in this policy or sell, deliver, or give, or attempt to sell, deliver, or give to any person substances the student represents or believes to be a substance(s) listed in this policy.
2. Possess, procure, purchase, or receive, or to attempt to possess, procure, purchase, or receive the substances listed in this policy or what is represented by or to the student to be any of the substances listed in this policy or what the student believes is any of the substances in this policy. A student will be determined to be "in possession" when the substance is on the student's person or in the student's locker, car, handbag, or when s/he owns it completely or partially.
3. Be under the influence of (legal intoxication not required), use, consume, or attempt to use or consume the substances listed in this policy or what is represented by or to the student to be any of the substances listed in this policy or what the student believes is any of the substances in this policy.
4. Knowingly or intentionally aiding or abetting in any of the above activities.

This policy applies to any student who is on school property, who is in attendance at school, at a school-sponsored activity, or whose off-campus conduct is reasonably predicted to substantially disrupt the operations of the District, district safety, or welfare of students or employees.

Prohibited Substances

1. Alcohol or any alcoholic beverage;
2. Any controlled substance or dangerous drug as defined by NDCC Sections 19-03.1-05 through 19-03.1-13 and 19-03.1-26 (paraphernalia) or as defined by Section 812, Schedules I-V, of Title 21, United States Code, Section 801, et seq., including but not limited to marijuana, any narcotic drug, any hallucinogen, any stimulant or depressant, and all other illicit drugs;
3. Any glue, aerosol paint, or any other chemical substance used for inhalation;

4. Any prescription or non-prescription drug, medicine, or other chemical including, but not limited to stimulants, diet pills, pep pills, "no-doze" pills, depressants, sports or muscle-building supplements, and sleeping pills not administered and/or taken with appropriate consent and authorization from parents, school administration, and, if applicable, a health care provider.

The District has a separate policy dealing with tobacco use.

Reporting Violations

A student or staff member that has reason to believe that a student has violated this policy should notify a school official (i.e., a teacher or administrator if the reporter is a student; a school administrator if the reporter is a district staff member). Except in limited circumstances under law,¹ a teacher is required to report known or suspected violations of this policy to the school principal.

Violation

When an administrator has reasonable suspicion that a student has violated this policy, s/he may search the student in accordance with the district's policy on searches of students' personal property. Such searches shall not include referral for mandatory alcohol/drug testing.

Disciplinary sanctions will be imposed on, and additional actions may be taken (as listed below) in response to, any violation of this policy. These sanctions may include suspension or expulsion, intervention (as described below), and notification of proper authorities for prosecution. Prohibited substances will be confiscated and illegal substances will be turned over to law enforcement authorities.

Intervention

It is acknowledged that the public school has neither the authority nor the responsibility to make medical or health determinations regarding chemical dependency; however, when observed behavior indicates that a problem exists that may affect the student's ability to learn or the educational climate of the school, the school has a right and a responsibility to refer the student for a formal chemical dependency diagnosis. The Superintendent shall develop a procedure for chemical dependency identification and referral for treatment.

Referral for treatment shall be a constructive not punitive action; however, use of the treatment program shall not override or prohibit the District from taking disciplinary action for violations of this policy.

The school will make a reasonable effort to cooperate with a therapy program if one is recommended for the student. The Board believes that if a student is involved in a chemical dependency program and is successfully addressing his/her harmful involvement with chemicals, s/he may continue in the regular school setting and continue to participate in any extracurricular

¹ When a teacher/principal participates in a juvenile court program and receives confidential information about a student.

program unless participation is in conflict with rules and regulations set forth by the Board and the North Dakota High School Activities Association and/or the student has been suspended or expelled as a result of a district policy violation.

Confidentiality

The District shall maintain the confidentiality of students referred for counseling and chemical dependency treatment in accordance with the district's policy on counseling records.

Education

The District will teach about drugs and alcohol in an age appropriate developmentally based education and prevention program in every grade in accordance with law. This program will include information about drug and alcohol counseling and rehabilitation programs available to the students.

In addition, the District will annually conduct staff orientation and training on drug and alcohol prevention, including a periodic overview of this policy and its procedures for implementation; the chemical health curriculum; and intervention procedures. In the event an employee is unable to attend such in-service sessions, the administrator will cause this policy to be individually reviewed with such employee. The building administrator and/or department manager will maintain a list of all employees with whom this policy has been reviewed, whether individually or through in-service training, along with the dates of such review or training.

The District will also provide parent and community education on the topic of drug and alcohol prevention.

Policy Implementation

Student handbooks shall contain a statement of sanctions required concerning the possession, use, or distribution of drugs and/or alcohol.

The Bismarck School District will review this policy and its implementation periodically to ensure that disciplinary sanctions are consistently applied and to determine the effectiveness of the program for the prevention of alcohol and other drug use/abuse.
